Circular No:10/2023-24

04th August, 2023

Sub: Maximum limits prescribed by Qatar for pesticide residues & other chemical and microbiological parameters in Spices & Spice Products - reg.

Ref: Spices Board Circular No:10/2021 dated 5th October,2021

It has been reported that the Ministry of Public Health, State of Qatar is undertaking sampling and testing of Spices & Spices products imported to Qatar for pesticide residues as well as chemical and microbiological contaminants.

It is learned that the Central Food Laboratory (CFL), Qatar analyses pesticide residues included in its scope of analysis according to the international standards in force in the field of pesticide residues (European Union specifications, International Food Code etc). Accordingly, if any substance is detected at a level higher than the maximum permissible limits, these consignments are considered non-conforming.

Spices Board has taken steps for obtaining official information on the specific product wise MRLs prescribed by Qatar. Meanwhile, based on information from various sources, the Board has compiled a list, including pesticides, toxins and other contaminants for which consignments of spices and spice products have been tested by Qatar in the past, along with the applicable limits / Limit of Quantification (LOQ). The compilation is attached as Annexure I, which may be used by the exporters as a reference point, so as to have an understanding on the parameters for which consignments of spices and spice products, exported to Qatar can be subjected to testing.

Further, all exporters of spices and spice products to Qatar, are advised to exercise due diligence and have consultations with the buyers on the applicable limits for pesticides,

toxins and other contaminants, prior to export to Qatar and undertake exports, only after ensuring compliance with the applicable limits.

Director (MKTG)

To,

All Exporters of Spices and Spice Products

(Issued from File No: MKT-ENQ-DG/0001/2018-MARKETING - 13757)

(Hindi Version follows)

I. Parameters and Applicable Limits compiled from the Analytical Reports of Central Food Laboratory (CFL), Qatar

Sl No	Parameter (Chemical & Microbiological)	Applicable limit
1	Aerobic plate count (SPC)	<=1000000 CFU/g
2	Bacillus cereus	<=10000 CFU/g
3	Clostridium perfringens	<=1000 CFU/g
4	Faecal Coliforms	<=100 CFU/g
5	Molds	<=1000000 CFU/g
6	Staphylococcus aureus	<=1000 CFU/g
7	Salmonella spp	Absent in 25g
8	Illegal dyes	Absent
9	Caesium-137	<=75 Bq/kg
10	Aflatoxin (G1,G2,B1,B2,Total)	<= 20 mg/kg
11	Ochratoxin A	<= 20 mg/kg
12	Escherichia coli	<=100 CFU/g
13	Listeria monocytogenes	Absent in 25g
14	Cadmium (Cd)	<=0.2 mg/kg
15	Lead (Pb)	<=0.3 mg/kg
16	Escherichia coli O157:H7	Absent

II. Parameters and Level of Quantification (LOQ) as per the Scope of Accreditation of the Central Food Laboratories (CFL) Qatar

Sl No.	Parameter (Pesticides)	Limit of Quantification (LOQ) (mg/kg)
1	I -Naftylacetamide	0.01
