

## **TENDER NOTICE FOR COW-DUNG DE-WATERING SYSTEM**

**Tender reference: SB/ GNT/RKVY/03//17-18**

**9<sup>th</sup> November 2017**

Spices Board for its farmer oriented project at the Guntur Gosala in Guntur city in Andhra Pradesh is proposing to procure the following machinery for processing of cow-dung for production of organic inputs for farmers besides a pellet making system.

Requirement: The proposed machine should be capable of processing continuously both dry and wet cow dung in the Gosala, with economical use of electricity.

- a. Cow-dung De-watering system - One unit with a capacity to process 250 kgs/ hour
- b. ISI standard electric motor - Minimum 2 HP
- c. Type of material required for system - Stainless Steel
- d. Pellet making machine - One unit 30 kgs/ hour

Industrial manufacturers of the above machines (only ISI marks) may submit their competitive offers showing GST with the following details for each of the machines with ISI specifications as above.

- (i) Capacity of the machine with the motor capacity for each machine
- (ii) Type of metal and grade used in the body for each machine
- (iii) Cost of the machines individually quoted with GST rate
- (iv) Transport, installation and training cost
- (v) Warranty period and after sales service.

(vi) Details of the company with profile and pictures

(vii) Details of similar machines supplied with names.

We appreciate if pictures/ brochures/ relevant details of the machines are forwarded along with the offer.

**Your offer complete with all details sought above and costs with GST components may be furnished in sealed cover and forwarded to the following address so as to reach the same on or before 5 pm, 22<sup>nd</sup> November 2017.**
