Circular No.01/2025-26

19th May, 2025

Sub: Market Access by China for export of ground spices from India-reg

As you are aware, subsequent to the implementation of mandatory registration of overseas enterprises under the General Administration of Customs of the People's Republic of China (GACC) system (during November 2021), China has streamlined the import of products to the country based on the market access. Accordingly, the export of Spices & Spices products from India to China was limited to twenty five products having valid market access.

In this regard, Spices Board, through the Embassy of India (EoI), Beijing has been taking up with GACC for granting market access to more number of spices and spice products from India. Subsequently, the Bureau of Import and Export Food Safety, GACC has updated the Market Access Requirements of plant-based spice products imported by China and accordingly plant-based ground spices will no longer require market access for entry to China. Therefore, ground spices (details given in Annexure I) can hereafter be exported from India to China without the requirement for market access. However, the enterprises exporting these products are still required to register on GACC's China Import Food Enterprise Registration (CIFER) system to be eligible to export such products to China.

In view of the above, all exporters of spices to China are urged to make use of the trade opportunity for export of ground spices from India to China. Further, with regard to CIFER registration the earlier circulars of Spices Board (No: 13/2021, 16/2021, 04/2023-24, 06/2023-24,) may be referred to.

Effect of the Circular: Ground spices (details given in Annexure I) can be exported from India to China without the specific requirement for a market access. However, CIPHER registration is required for export of ground spices to China.
