BUYER SELLER MEET FOR SPICES

Gangtok, Sikkim | Date: 25 September 2024

Indian Spices Sector

India is the leading producer, consumer and exporter of spices in the world. The major spices produced in the country are Chilli, Garlic, Ginger, Turmeric, Coriander, Cumin, Fenugreek, Tamarind, Fennel, Pepper, cardamom (small) etc., which contribute to more than 95% of the total production of spices in the country. During 2023-24, India produced a total quantity of around 11.80 million MT spices and exported around 1.54 million MT of spices during the year which is around 13 % of the total spice production in the country. Also, spices contributed to around 8 % of India's total Agri exports and over 40% of India's total Horti exports.

Spices Sector of Sikkim Region

Sikkim: Small but Beautiful" – is one of the most sought-after tourist destinations in India. Located in the Eastern Himalayas, the state is renowned for its breathtaking panoramic views and rich biodiversity. Recognized as one of India's biodiversity hotspots, Sikkim was officially declared a fully organic state in Jan 2016, with all its agricultural land certified organic under the National Program for Organic Production (NPOP) and National Organic Program (NOP) standards. In 2018, Sikkim won the FAO's Future Policy Award for implementing the world's best policies promoting agroecology and sustainable food systems. In Aug 2019, it was declared the world's first 100% organic state by the UN Food and Agriculture Organization (FAO).

As an entirely organic state, the Sikkim government actively promotes its agricultural produce under the brand "Sikkim Organic" in the national and international organic markets. The state's farming community produces a range of indigenous spices with significant commercial potential. Recognizing this, NITI Aayog identified three key spices—large cardamom, ginger, and turmeric—as exportable products from Sikkim. Additionally, under the One District One Product (ODOP) initiative, the Ministry of Food Processing Industries (MoFPI) also designated large cardamom, ginger, and the red cherry pepper (Dalle Khursani) as key spices for promotion.

The unique red cherry pepper - Dalle Khursani got Geographical Indication Tag on 2021. With a heat level of 1.0 to 1.2 lakh Scoville units and known for its vibrant color and pleasant aroma, this chilli is commonly used in pickles and sauces.

Large cardamom which received a Geographical Indication (GI) tag in 2015, is believed to have originated in Sikkim. This high-quality cardamom is in demand both domestically and internationally, particularly in the medicinal and food sectors.

Spices Board in Sikkim Region

The Spices Board under the Ministry of Commerce & Industry, Govt. of India, has been actively promoting large cardamom and other spices from the region. Presently, the Spices Board has well-established network of offices to serve the spice growers, traders, and exporters from the region of Sikkim and the hill districts of West Bengal. The network includes One Regional Office, One Regional Research Station, Four Divisional Offices and Two Field Offices.

Sl. No.	Name of Office	Contact Details

Board's programme in the Sikkim Region

The Spices Board in the Sikkim region has been instrumental in providing support and guidance to farmers groups/ FPOs, manufacturers and traders, enabling them to elevate their status to registered exporters of spices. Over the past two years, the Board has successfully developed six new exporters from the region.

In addition to export promotion, the Spices Board actively promotes the Geographical Indication (GI) spices of the region, such as large cardamom and Dalle Khursani. The Board provides essential support to Farmer Producer Organizations (FPOs) engaged in marketing these GI spices by ensuring they are registered as authorized users of the GI tag, helping them maximize the benefits of GI status while enhancing the market visibility and value of the region's unique spice products.

BSM for Spices at Gangtok, Sikkim

The Spices Board plays a pivotal role in promoting Indian spices globally and ensuring India maintains its leadership in the international spice market. The Board supports stakeholders across the spice industry—including farmers, processors, traders, and exporters—through various programs under its approved scheme addressing production, processing, value addition, branding, and market promotion of spices.

In response to the growing demand for organic spices, the Spices Board is organizing a Buyer-Seller Meet focused on the spice produce of the Sikkim region, at the Fern Denzong Hotel,

Gangtok, Sikkim, on 25 September 2024, at 10:00 am. The event aims to provide a platform for direct linkage between farmers and exporters / traders. The focus will be on large cardamom, ginger, Dalle Khursani (red cherry pepper), and turmeric. Sellers representing progressive farmers, Farmer Producer Organizations (FPOs), processors, and traders from Sikkim and nearby regions of West Bengal will participate, along with prominent national and international buyers from across the country.

List of Buyers and Sellers participating in the event are as follows.
