

Corrigendum (2) – Tender for Software Development

- Ref:
1. Tender No. EDP/SW/ESS/UPDATE/2016 dated 12th Apr 2017
 2. Pre-bid meeting held at Spices Board on 20th Apr 2017
 3. Corrigendum dated 25th Apr 2017
 4. Pre-bid meeting held at Spices Board on 2nd May 2017

With reference to the above, the following modifications are made in the tender cited, under Annexure 1 – Detailed Requirements.

- (1) In overview of existing web application, please note that Export Support System (ESS) is a web application written in PHP(5.1) using CakePHP framework and vendor may either enhance the application in existing framework or rewrite the application in Core PHP or open source PHP framework.
- (2) Existing web application (ESS) also requires the following features
 - a) Provision for remitting the payment in advance through online by the exporter.
 - b) Provision to accept the private sample from the exporter and entering the details in the ESS system by the Marketing staff. The testing cost can be adjusted from the available advance amount of the Exporter.
 - c) Provision to accept the samples from the farmers and departmental samples. Subsidised rates are applicable for the farmers. For the departmental samples, currently there is no cost involved.
 - d) Subsidised rate for the farmer sample should be able to be defined by the administrator.
 - e) Various customized reports viz sampling, stuffing, payment details, advance payment details, private, department and farmer sample & other relevant reports should be available from the system.

Deputy Director (EDP)
